- Cart Charging

**Reception & Dinner**

**Lunch, Trade Show and Meetings**

## Tuesday, May 30

No scheduled events. The Red Mill is open for dinner from 5pm to 10pm.

## Wednesday, May 31

- 9:00am** **VFDA Board Meeting** *Garden Room*
- 10:00 am** **HCCV Board Meeting** *Garden Room*
- 11:00 am** **Trade Show Opens** *Ardelia's*
- 11:45 am** **Welcome** *The Lodge Lawn*  
Summary of the winter that was and a review of a legislative session like none other.  
*Governor Phil Scott, invited*
- Noon** **Lunch** *The Lodge Lawn*
- 1:30 pm** **The New Rules of Engagement to Run a Profitable Operation** *Garden Room*  
Get ready for some "Fuel for Thought" on how to run an efficient and profitable business in 2023. Day-to-day operations don't change much from month to month but how quickly the years pass. This seminar will cover key operational improvements when it comes to receivables, financing, staffing, delivery planning, and more. *Danny Silverman with Angus Energy*
- 1:30 pm** **Rules and Regulations: Oil Tanks & Propane** *Terrace Room*  
More than five years after they were put in place, Vermont's Aboveground Storage Tank Regulations are now being updated. And the latest version could mean significant upgrades to existing tank systems and new rules on when and how you deliver. *Bob Hedden, Oilheat Associates/Anna Bourakovsky, Dept. of Environmental Conservation*  
We will then pivot to propane. Nearly 40 years after CP-111 became law, Vermont's rules and regulations around the delivery of propane are still a big concern at the Vermont Attorney General's office. Find out what customers are telling the Consumer Assistance Program and how you can make sure your company is in compliance.  
*Leslie Anderson, PGANE/Ted Hobson, Vermont Attorney General's Office*
- 3:00pm** **The Affordable Heat Act: What It Is and What Happens Now** *Club Room*  
The so-called "Affordable Heat Act" is now law. Starting on July 1, the Public Utility Commission (PUC) will get to work designing the Clean Heat Standard. If fully implemented in two years, fuel dealers will have to sell less heating fuel to their customers or else pay someone else to get Vermonters to use less. Data will soon be collected on every gallon that is purchased and sold, creating something called a "clean heat credit marketplace." What happens next, can you adapt... and can this be defeated?  
*Matt Cota, Meadow Hill Consulting*
- 4:30 pm** **Reception** *Town Hall/Sun Porch*
- 5:30 pm** **Dinner, Raffle, and Founder's Award Presentation** *Town Hall*
- 8:00 pm** **Hospitality House Opens** *The Homestead*

## Thursday, June 1

- 8:00 am** **Golf Registration** *Basin Harbor Club Golf Course*
- 9:00 am** **Scramble Tournament, Shotgun Start**

Your questions answered by the people who know propane equipment.

## Make the Switch to Biofuel

**Did you know that many states in the Northeast mandate blends of B5 heating oil or higher?**

Let us help you stay ahead of mandates and support alternative cleaner burning fuels!

### **Benefits of Biofuel:\***

- Blends easily with traditional fuels
- Reduces equipment service calls
- Extends heating system life expectancy
- Equipment modifications NOT needed
- Reduces carbon emissions

**Stop by Sprague's table at the VFDA  
Conference to learn more!**
